Twin Screw Extruders

NEW MELT COOLERS FOR FOAMEXTRUSION

SARA srl is highly specialized in foam extrusion by co-rotating twin screw extruders. Today SARA srl is presenting the new Melt Coolers for foam extrusion:

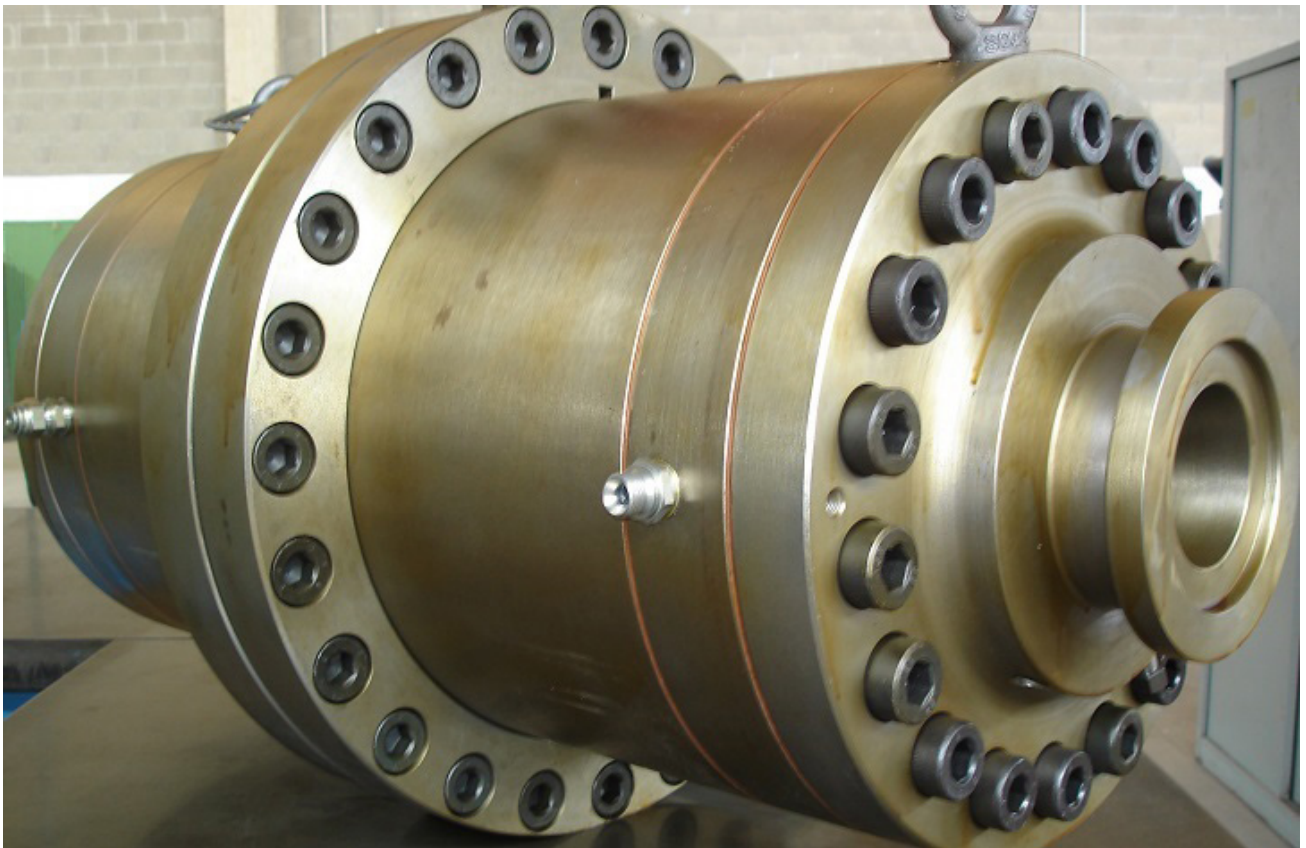

- **NewMelt Coolers “SRX” series by SARA srl**

The new series of melt coolers “SRX” are

available with output range of 100-200-300-500-800-1000-1500-2000 Kg/h

Thanks to the perfect homogenization and cooling of the melt, the quality of the foam extrusion greatly improves.
